INTRODUCTION

The average believer is he that believes in what he does not really understand. It is a fact that man exists and lives as both physical and spiritual entity. The animal soul in man afford him the understanding of his physical environment but because the spirit of man is in state of coma, the situation that makes it dormant and inactive, man does not have the understanding of his spiritual environment. The worship of God requires that we know Him. We cannot know Him enough if we do not know Satan the devil and the opposer of God and man.

In this book, we explain the basic things that a believer must understand and which will become to him a solid foundation upon which he can build his faith. The earth life is a battle field. The most vital information in the military is that which you know about your enemy especially that which he has no idea that you know. The Bible says we cannot ignore knowing the device of the devil.

“Lest Satan should get an advantage of us; for we are not ignorant of his devices.”(2 Cor. 2:11)

This book is about you, to tell you who and what you are. It will tell you about the world that consist of your physical and spiritual environment, it will explain your privilege to bind and to loose insisting that your light can shine and continue to shine in the darkness of this world and the darkness will not understand it. It is a book of victory over the demonic world with the understanding of 1st John 4:4

“Ye are of God, little children, and have overcome them: because greater is he that is in you, than he that is in the world.”

Brethren, I welcome you to a journey in grace through which you are assured victory over your situation and your environment.

MY TESTIMONY

I started being spiritually attacked from my infant days. I have experienced eating in dream, sexual intercourse in dream, being pressed down at sleep, Police, masquerade and robbers attack in dream, Gunshot, inability to climb the hill, excreta or feces on the body, finding myself in old school, examination in dream and so many other dream experiences that I cannot list here. I also met with cobweb on the street. My life has been miserable and terrible. In the real life, I was isolated, ignored, abhorred, rejected, hated, castigated, underrated, abused and given treatment that is unfit for domestic animals.

I thought I was the only person on earth that has these experiences until one day after my complete deliverance. In my ministration to the church, I narrated my ordeal and how God delivered me, I now requested for anyone that has suffered something similar to them to come forward. I was astonished to see over half of the congregation come out. I was surprised because the church is not addressing these challenges. I am sure if I had narrated the challenges to a typical Pastor in the

Pentecostal church, he would probably refer me to the psychiatric doctors. This is how majority of believer suffer and have to go outside the church to seek solution to the challenges that the church is in the best position to handle and to resolve.

Across the world, Satan has only one objective and that is to oppose the children of God but the strategy of his operation differs from one area to the other. His principal demons located in the different parts of the earth designs their individual operational strategies. The Bible tells us about the Prince of Persia and the Prince of Greek. These are the territorial demonic agents that drive the demonic activities in their geographical areas. The above is to explain that the operation of witchcraft differ from one territory to another. Generally, Christian worship has been reduced to mere moral teaching in line with the culture and custom of the people of the western world.

We fail to reason that our Lord Jesus was not born in the West, but when the people in the West saw the superiority of Christianity to other religions of the world, they mere embraced the teachings and merged it into their culture. Unfortunately, the African picked the

Western culture as the authentic Christian life and submitted themselves into slave mentality.

Operation of witchcraft in Africa is a reflection of our values and other aspect of the situation of our lives. For example, it was abnormal for an African man to have only one wife in the past, the bride going for marriage was always equipped and fortified with witchcraft to fight for attention, protect herself and her children and possibly ensure that others come under her. This led to the step mother's syndrome for every African child that has spiritual attack. The step mother is usually the first suspect. This culture does not exist in the Western world. A Pastor with the orientation of the West cannot appreciate the plight of the believer suffering attacks of this nature. It is not only about the step mother but about the uncles and other relations who have access to the spiritual label which are used to monitor our lives.

Unfortunately, the area of the need of the African believer is not only unattended to but it seems there is an attempt to play it down even by the media practioners who have the rule that certain spiritual challenges should not feature in the radio and television Christian teachings. While banning the unsubstantiated

and unproved and indeed very childish showmanship in which deliverance is done through the pushing down of the believers and other forms of unbiblical demonstration is welcome, the media cannot and should not disallow the teachings that can liberate millions of people from the custody of the demonic agents “Witches and wizards”

Our Christian worship in Africa must be relevant to our challenges. Our worship must be culturally relevant as well. Christianity is about freedom from the captivity of the world. Every captive has a captor. In the manner of Moses, God raised up a messiah from His people not from among the Egyptians but His own people Israel. African should not expect the captors to also stand as their messiah.

This book is about the activities of Satan and his human agents across the entire world. Reference to Africa is just to teach that Jesus Christ is a universal phenomenon that represents the true deliverance which we can access directly without having to go through the spiritual space of the people in other races in the other parts of the world.

Chapter One

Man in Creation

Man was created in the image and in the likeness of his creator (GOD). He has a soul that is encased in the body of flesh. The image of God is the nature of God, the nature of God is Holiness. The likeness of God is the character of God. The likeness is about his absolute ability and Power. Man is endowed with these sets of attributes through which he exercises dominion over other creatures.

“And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth.”(Gen 1:26)

Biologically, man is an animal but animal with a difference. The situation of man can be illustrated as

follows. All automobiles move on the highways. We can now imagine a special vehicle that combines the attributes of the automobile with that of a helicopter, which means, it is a vehicle that is capable of movement on the highway and in the air. By its special nature and attributes, the vehicle cannot be compared to other regular automobiles because it also belongs to the class of the Aircraft. The position of man in the animal world is like that of this special vehicle in the automobile world because it can also fly. Man is a spirit living in the animal body of flesh. Man has ability to creativity. Same as the Angels, man also has the ability of choice or volition.

The Need for Animal Body

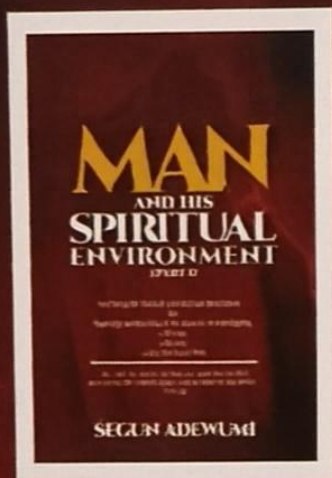

As stated above, man is a spirit with a soul that lives in the body of flesh. Man was created for the purpose of leading the entire creation in the worship of God. For this reason, man had the consciousness of the physical earth through his animal soul. It is the animal soul that provides man with the ability to relate to his physical environment. At creation, man had the consciousness of his spiritual environment. Man therefore related

consciously to the earth and the heavens because he was the representative of God on earth.

This was the situation of man until Adam and Eve sinned against God by eating the fruit of the forbidden tree. The result was that God withdrew His current that supplies the spirit of man with Life. The withdrawal of God's current from man resulted in man's positive death. That means while man retains the consciousness of his physical environment he completely lost that of his spiritual environment. Human spirit is like electric bulb that does not discharge light when it lacks electric current. The current that illuminates man in his spirit dimension has been withdrawn, man's spirit is therefore in a state of coma, an unconscious position.

As a result of the above the personality of man shifted from the spirit to the soul. He lost his divine identity and became totally carnal. Realizing he has his spirit in a coma, he strives to activate it. He has two options with different prices.
